

## Use of radio frequency and the radio equipment in Suzuka Circuit

In case you use the radio equipment in the circuit, it needs to conform to the technical regulations under the Radio Law.

If you use the radio equipment that has no Technical Conformity Mark affixed in Japan, it goes against the Law.

Suzuka Circuit firmly opposes any use of illegal radio frequency.  
You should be very careful.

[Technical Conformity Mark]

We deeply appreciate your comprehension and cooperation.
