

In a regulation of Japan, all the radios need to obtain license.  
The same system as the licence plate of a car.

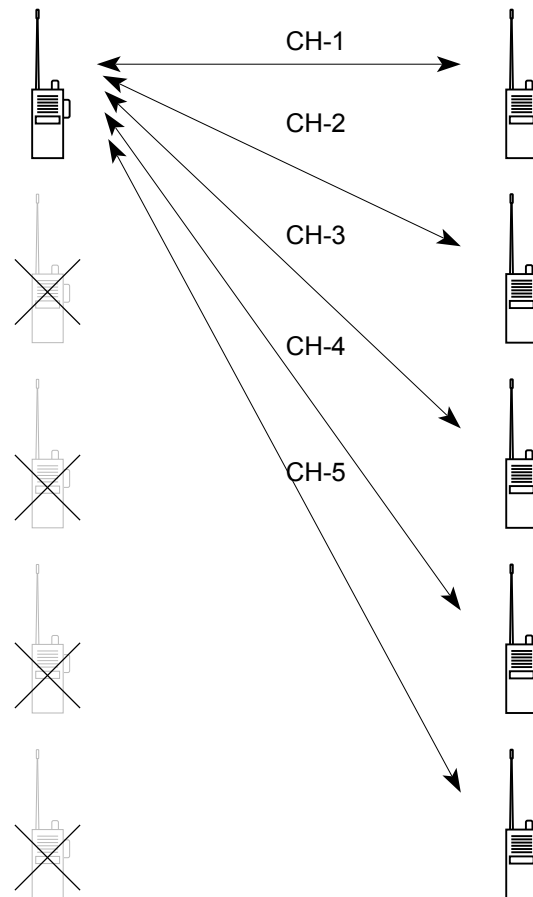

We have to apply for 10 units of radios.

# MoSRA Method

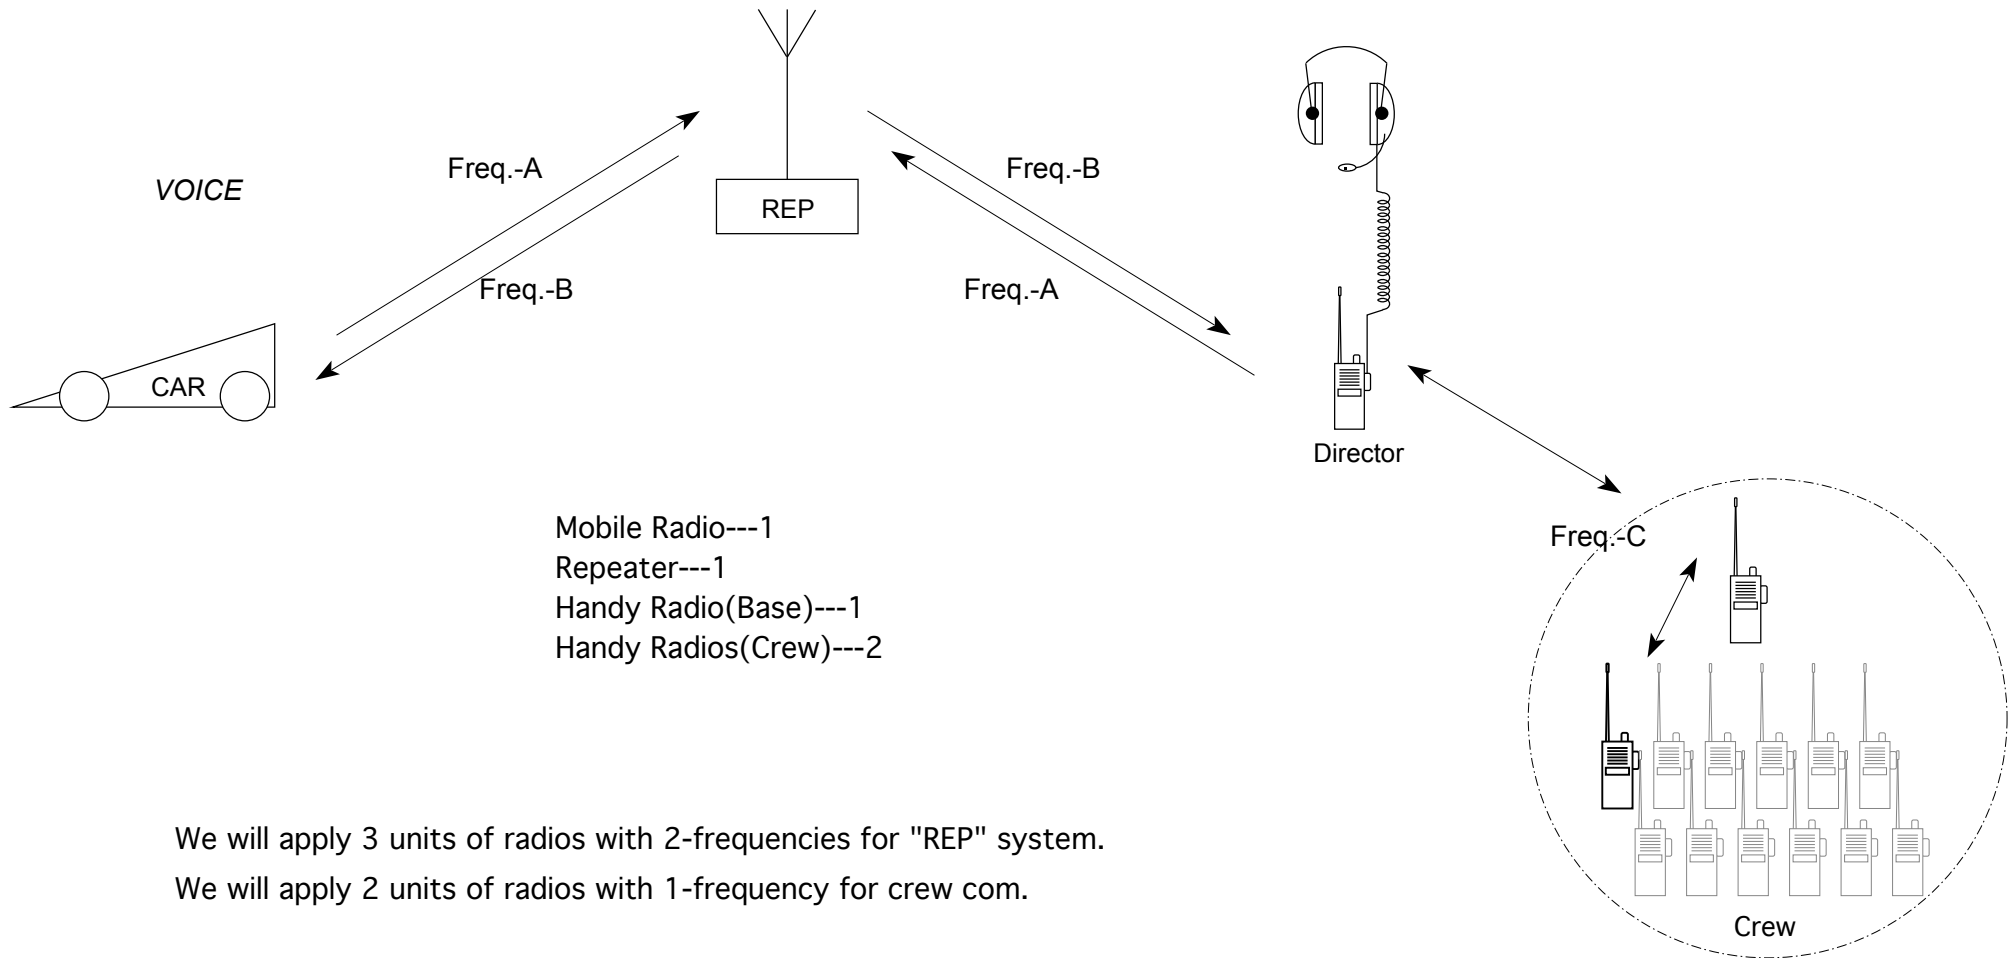

only for International motor sports event

We calculate on the basis of frequency by an original method.  
As for this method, only we are approved by the government.

We can apply with 6 units of radios for 5 frequency.

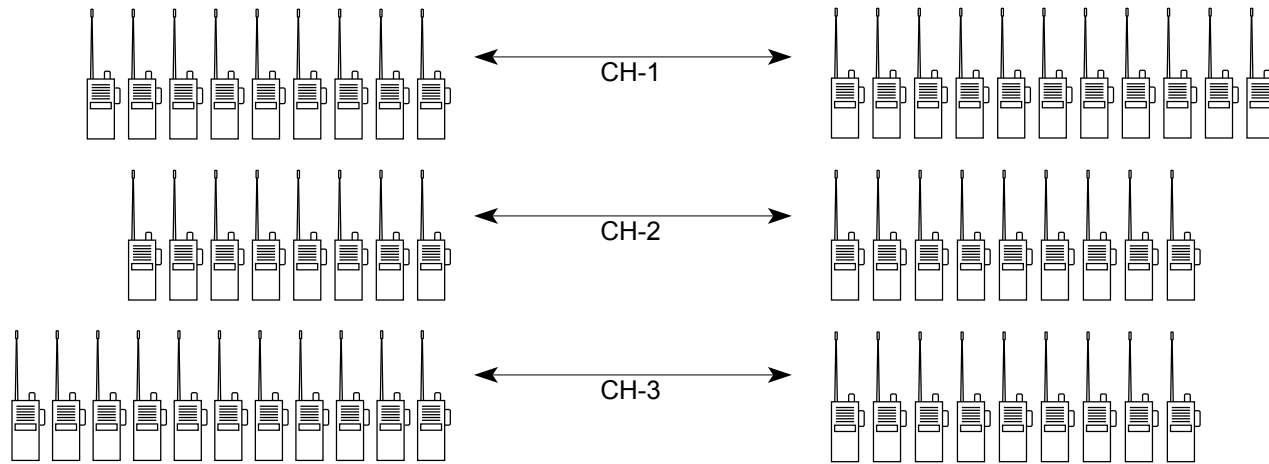

If you want to use this system with 3-frequencies.

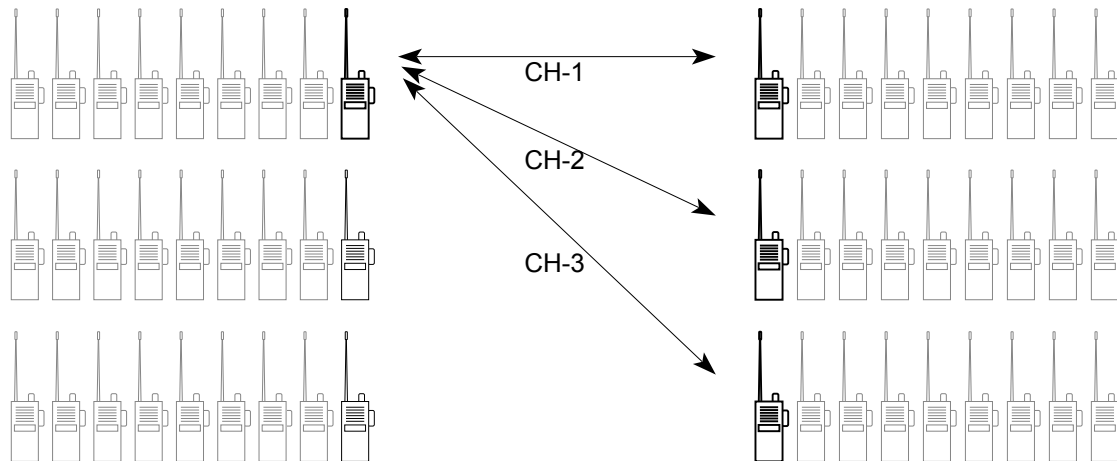

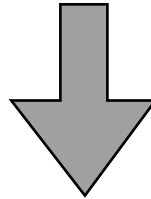

We will apply 3 units of radios with 2-frequencies for "REP" system.  
We will apply 2 units of radios with 1-frequency for crew com.

You can use all number of radios.

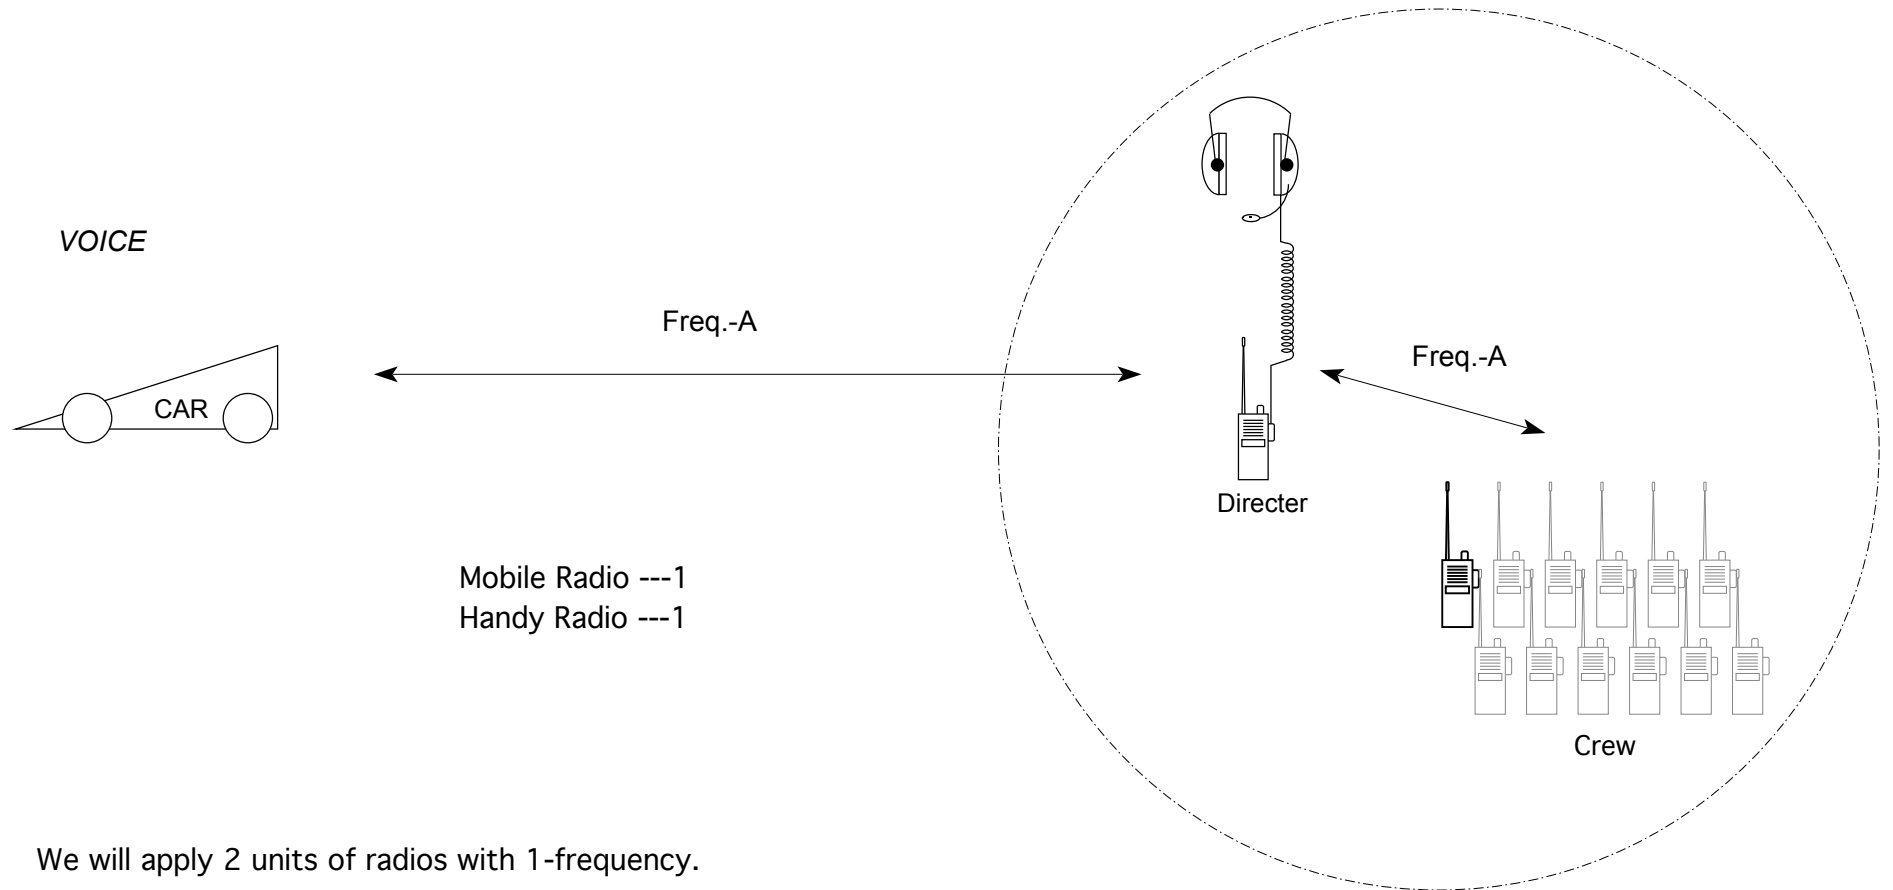

If you need 3-channels with 60 units of radios.

We will apply 4 units of radios with 3-frequencies.

If you want to use this system with 1-frequency.

We will apply 2 units of radios with 1-frequency.

You can use all number of radios.
